

EASYdemp Caraudio anti-drumming sheets

Anti-drumming plates for the automotive industry

EASY damping anti-drumming plates have been specifically developed for the automotive industry and optimally dampen vibrations in sheet metal. The product is made with, among other things, bitumen and therefore has a high mass and good dampening.

Profits

- ✓ Set of 5 or 10 plates
- ✓ Suitable for car audio applications
- ✓ Self-adhesive

Applications

EASYdemp Caraudio has been specifically developed for the automotive industry. It is already used in large quantities in cars to reduce vibrations. By applying EASYdemp to the metal sheet, the vibrational energy is damped, so that the sound radiation decreases. To achieve good anti-drumming, it is not always necessary to cover the entire surface; usually covering 60% of the surface is more than sufficient.

When to use what?

For thinner sheet materials such as those in car doors, we recommend applying EASYdemp Normal to at least 60% of the surface. With thicker plate materials (such as the bottom plate, the firewall or used in speaker housings), you can also opt for EASYdemp Xtra for extra dampening.

Size

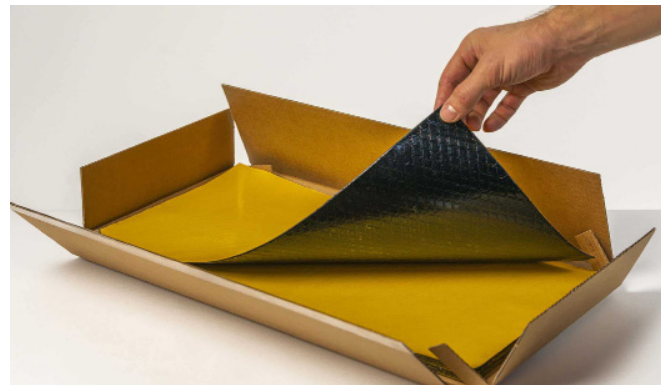

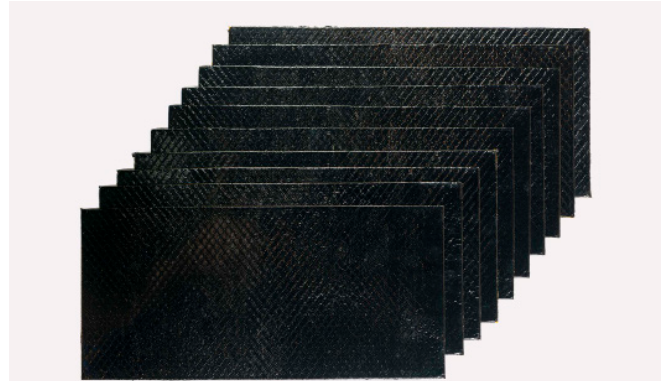

- EASYdemp Normal has a weight of 3.5 kg/m² (thickness of 2 mm). Sold per set of 10 plates (50 x 25 cm, each = 1.25 m² in total).
- EASYdemp Xtra has a weight of 7.5 kg/m² (thickness of 4 mm). Sold per set of 5 plates (50 x 25 cm, each = 0.625 m² in total).

Color

Black

Processing

- Easy to trim or cut to size
- Due to its flexibility, EASYdemp is good for processing curved surfaces
- The substrate must be dry, free of dust and grease
- When applying, make sure that there are no air inclusions
- Do not use at low temperatures (below 15 degrees Celsius)

#weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock

Ordering or more information

Visit our website or showroom for acoustic advice or contact us by telephone for an appointment on location.
