

EASYfoam NP Premium

Convuluted foam

EASYfoam convoluted foam is a high-quality foam with excellent noise absorption values. This convoluted foam has a self-adhesive back making it very easy to apply.

Profits

- ✓ High-quality open-cell polyester foam
- ✓ Firm thanks to uniform cell distribution
- ✓ Self-adhesive

Applications

- Sound studios
- Technical spaces
- Air treatment units
- Cabin construction
- Air ducts

Size

100 x 60 cm / 120 x 100 cm.

Thickness

30 mm, 50 mm and 80 mm.

Color

Grey

Composition

EASYfoam convoluted foam is made of a high-quality, open-cell polyester. It is of an excellent quality and perfectly resistant to ageing. The self-adhesive back makes this product easy to apply. The very uniform cell distribution ensures for the material to have a firm feel and a beautiful look.

Processing

EASYfoam convoluted foam can easily be shaped with a cutter. To assure a good hold, it's necessary that the surface is clean, dry and free of grease. Apply firm pressure on the product to make sure that there's no air left under. When facing a rough surface, it should be treated with MKD Extreme Tack contact adhesive to assure a good hold.

The absorption values are measured according to EN 354:2003

EASYfoam NP Premium

Custom made

EASYfoam convoluted foam can be custom made, including different measurements and thicknesses as well other forms of processing.

Fire resistance

EASYfoam convoluted foam is flame-extinguishing according to FMVSS 302 and UL-94 class HF1. However, polyester foams and polyether foams are not suitable to be used in public spaces because of the high requirements with regard to fire resistance in these spaces.

#weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.
